Building Specifications

Construction:	Concrete Tilt-Up Panels – Interior panels will have a broom finish and remain unpainted.
Building Size:	606,580 SF (1,035.5' x 580.4') on 31.005 ± acres of land
Columns Spacing:	54.5' x 65' at speed bays and 54.5' x 50' at storage bays
Clear Height:	36' with "top-hat" style roof that peaks in the middle of the building.
Floors:	7" thick, un-reinforced 4,000 psi concrete on a 4" compacted AB-3 granular base with a 15-MIL vapor retarder under the entire building floor slab. Typical floor flatness FF 35 minimum and floor levelness of FL 30 minimum.
Fire Sprinkler:	A hydraulically calculated E.S.F.R fire protection system designed in accordance with NFPA 13 with a design based on a flow test of 77 psi static, 70 psi residual, flowing at 1,353 gpm. A fire pump system has been included. The wet pipe system is designed for E.S.F.R protection of Class I – IV commodities stored to a maximum storage height of 40' and a maximum deck height of 45'. Twenty-six (26) hose valves are located throughout the building. Without knowing quantities and product stored there is no allowance calculated for storage above NFPA class IV commodity.
Warehouse HVAC:	The warehouse is heated with four (4) gas-fired make-up air units with design criteria of 50 degrees F at 0 degrees F outside.
Lighting:	Warehouse illuminated by LED F-BAY light fixtures with motion sensors for an average of 25FC a 3' A.F.F. throughout the warehouse. Exterior LED wall packs and pole lights around the building and trailer/truck parking/automobile parking areas.
Roofing:	45 mil TPO mechanically fastened roof system with R-20 insulation

Building Specifications

Electric Service:

The building has a 3,000 AMP 277/480V electrical service that enters near the center of the west side elevation. There is a 200-AMP 277/480V sub-panel as well as one 50AMP 120/208V subpanel that are for the house service. There is a 15KVA 480-120/208V transformer on site. North end, unit #16000, of 303,064 SF has a 2,000 AMP service, the middle section, unit #16150 of 159,128 SF has a 600 AMP service and the south end, unit #16200 of 144,388 SF has a 400 AMP service.

Internet and Voice Access

This is a prime corridor as Renner Boulevard has fiber in the street that connects to the sonet ring for the entire KC metro area. The copper provider is AT&T, while other fiber providers are: AT&T, T-Mobile, TW Telcom, Zayo Fiber, and Spectrum. Most providers can provide service to this building/park, as there is "Dark Fiber" in the street as well. Cable is provided by Spectrum.

Loading:

- Sixty (60) 9'x10' dock doors with pit levelers
- Up to twenty-four (24) block-outs for future docks
- All dock-high doors will be insulated, vision panels and exterior numbers
- Exterior lighting on building and poles in loading and parking areas
- All existing dock pits are equipped with 45,000 pound mechanical dock levelers, dock seals, and dock lights with receptacles
- 4- 14'x16' drive-in doors motor operated at the 4 corners.

Truck Court:

West side is 135' without trailer parking
East side is 135' up to 190' with trailer parking empty

Parking:

Up to 464- car parking and up to 95 trailer parking (71 dedicated trailer spots on north east side plus up to 24 more along building at block-outs)

Zoning:

BP-2 Planned Manufacturing

Utilities:

Natural Gas: Atmos Energy
Water: WaterOne
Electricity: Evergy
Sewer: Johnson County Wastewater

Building Specifications

Net Charges: (2026 Estimates)	CAM:	\$0.64	*Real Estate taxes are estimated based upon 1) Fixed PILOT payments per a negotiated abatement agreement with the City of Lenexa; 2) Other tax levies and specials that are not eligible for abatement; and 3) the estimated maximum Special Benefit District (SBD) payment(s) assessed against the property.
	INS:	\$0.19	
	RE TAXES*:	\$0.65	
	Total:	\$1.47	

*RE Taxes:	*10-Year Real Estate PILOT payment and includes Special Benefit District (SBD) payment and all other special assessments. Full schedule available upon request.
------------	---

Signage	Standard building signage available per exhibit and possible monument signage available.
---------	--

Note:	Interchange improvements at I-35 and 119th Street are planned to help ease congestion. The overpass will become a diverging diamond, allowing for traffic flow and safety enhancements. Travel lanes will also be added on 119th Street and turn lanes will be added to I-35 exit ramps.
