Electrical Service: At 12061 Metcalf there is a 175-amp 277/480-volt service that feeds a step down transformer in the space that then feeds (2) 200-amp 120/208 volt electrical panels.

- There are two transformers on the East side of the property. One is a 300kva, the other is a 75kva.
- Everyg shows that the vacancy is tied to the 300kva transformer that was installed in 2016.
- Everyg stated that only Old Navy is tied to the 75kva transformer and it was installed in 1996.
- Everyg is sending out a designer to review the loads and confirms which transformer is feeding 12061 Metcalf.
